HUMOR - A MAN AND HIS WIFE were talking. He said to her, "Just so you know, I never want to live in a vegetative state, dependent on some machine and fluids from a bottle. If that ever happens, just pull the plug.. She got up, unplugged the TV and threw out all his pop.

WHAT HAPPENED TO THE APOSTLES - Jude (Thaddeus), brother of James the Less, was crucified at Edessa, 72 A.D.

KIDS IN CHURCH - A Sunday school teacher asked her children, as they where on the way to church service, "And why is it necessary to be quiet in church?" One bright little girl replied, "Because people are sleeping."

POWER FOR TODAY - Whether by nature you are more like salt or light, the purpose is the same. To praise our Father in heaven! When salt enhances food, the food is praised, not the salt. When a light is turned on what is revealed is noticed, not the light. Our purpose is to praise and glorify God, not ourselves. Remember your purpose the next time you pass the salt or turn on the light, and glorify God.

WHY DO PEOPLE BLAME OTHERS?

It has always been characteristic of both men and women to blame someone else for their problems and their sins. In the garden of Eden we find Adam and Eve doing so. When God asked Adam about his nakedness and if he had eaten of the forbidden tree, Adam said, "...The woman whom thou gavest to be with me, she gave me of the tree, and I did eat. And the LORD God said unto the woman, What is this that thou hast done? And the woman said, The serpent beguiled me, and I did eat" (Genesis 3:11-13). King Saul spared the king of Amalek and the best animals instead of killing them as he was commanded. When asked why, he replied, "...the people spared the best of the sheep and of the oxen, to sacrifice unto the LORD thy God; and the rest we have utterly destroyed" (I Samuel 15:15).

It is so much easier to blame someone else than to accept the guilt and shame of our own sin. It is true that others sin and I may even think their sin is worse than mine, but that has nothing to do with the guilt I must bear because of my own sins! God will handle others according to his Word just as he will render unto me what I am due. Each one is responsible for himself!

Some of the most sobering words men can hear are found in the following verses. "For we must all appear before the judgment seat of Christ; that every one may receive the things done in his body, according to that he hath done, whether it be good or bad" (II Corinthians 5:10). "Who will render to every man according to his deeds" (Romans 2:6). "So then every one of us shall give account of himself to God" (Romans 14:12).

When we blame someone else for our sins, it is an attempt to escape the penalty and punishment of our sins. With every action, there must come a reaction. When one does a certain deed, he must accept the consequences of that deed. That is simply the way it is! You would not want to bear the penalty of someone else's sin would you? Neither do they want to bear the penalty of your sin! Therefore, everyone must bear the punishment of their own sin.

All have sinned (Romans 3:23) and need forgiveness. Faith AND obedience to God's Will brings forgiveness (Heb. 11:6; Luke 13:3; Acts 8:37; 2:38). Are you ready to obey?

MITES IN AMBER DEFFY EVOLUTION.

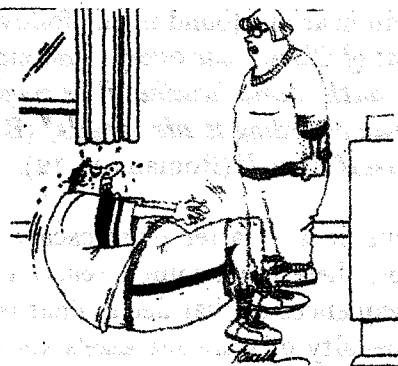

Researchers studying arthropods preserved in tree sap (amber) from the time of the dinosaurs have been amazed to find two species (*Triasacarus fedelei* and *Ampezzoa triassica*) that are the same now as they were then. Evolutionists maintain that changes in the environment select mutations that give a better chance of survival for the organism. The conditions present during the time of the dinosaurs were radically different from today which should mean all forms of life would be changed to meet the changing environment. Dr. David Grimaldi of the American Museum of Natural History says, "Dinosaurs have come and gone, but the mites have hardly changed." blueprint was built to last."

JUPITER SAVES US AGAIN

One of the points made in discussing the design of the solar system is that our major planets protect the earth from encroaching asteroids and comets that would otherwise strike us. In The Week, October 5, 2012, page 21, is a report that amateur astronomers have recorded four asteroid strikes in the past three years. Glenn Orton of NASA says that Jupiter may sustain an asteroid impact every week. He goes on to say that Jupiter acts as "a big gravitational vacuum cleaner" for asteroids and comets that would otherwise strike the earth. The main point is that there is a real survival purpose for the Jovian planets as they protect our planet from intrusions from outer space.

NEW DATA ON ALCOHOL.

The church of Christ has maintained for many years that alcohol is the most destructive recreational drug in existence in today's world. In the Alcoholics Anonymous 2012 Facts on Alcoholism, alcoholism is referred to as "the most neglected health problem in the United States today." They say that 10 million Americans suffer from alcoholism, costing the nation 43 billion dollars a year. The number of teenagers drinking today is 3.3 million indicating the problem is going to get worse. Fifty percent of all fatal accidents involve alcohol, 80% of fire deaths, 65% of drowning, 40% of assaults, 77% of falls, and 55% of arrests. We would maintain that Christians need to oppose alcohol's use and not support those who promote it.
