

WORLD PROVERBS - Mother's Day - It's the mother, mom, mommy, ma, who cures the broken hearts of children.

SENDING LOVE TO DEAR HEART - JOAN/RUBY/DON/DORTHY/JOI/JOHN BOY/DOLORES TAYLOR - Took 4th in the nation @ the Computer Technology Contest. YO! Were proud of ya! **JOAN** - Was able to have hair styled/still swollen ankle. **Mary** - Cataract surgery on other eye/Surgery OK. **ALMA** - Home as of last Wed/ home health care 3 days wk/DR using Australian Bee Honey for healing. **ROY** - Hips/knees/main problems. **DORIS** - Hip x-ray good/hopes to be back soon. **JANICE RATHBUN** - Another close call with death/med reaction/back home/hurrah!

HEALTH ISSUES - Virginia, Johnny, Marsha, Mildred, Weldon, Julie, Doris, Janice D, Roy, Mark, Joan, Ruby, Dolores, Mary, Joyce, Alma, Donna, Jim, Lena, Helen, Don, Dorothy, Joi, Ben, Joyce, Mark, Janice R, Debbie, and Julia Ford

THIS WEEK - PICK UP SEARCH FOR TRUTH CARDS - HAND OUT EVERYWHERE YOU GO

MAY MENU - SANDWICHES OR COLD CUTS - KICKOFF OF THE GOOD OLE SUMMER TIME.

INDIA MSV NEEDS - HG will be collecting three items each month for the next three months. May - Reading glasses only please/no old prescription/ good buy @ Dollar Tree & Dollar Gen - ESV.NKJV imitation leather Bibles - Sewing Kits.

MARINES - Always a thousand long nights full of grasping to become a few good men. Semper Fidelis!

ONE SOUL OUR GOAL ALL YEAR LONG - Remember our goal: HG is always facing problems. The problem of living in today's society demands that the Lord's people know what God has revealed to them about the problems. Everyone agrees that a revolution is taking place in American society. There is the problem of abortion on demand, break up of marriage, homosexual activity, drug addiction, human equality, and all the questions that the politicians make capital of. We are only half way through the year. Keep praying, writing, calling, and visiting that one soul.

WORD OF THE WEEK - MAINSAIL.-Some think the "mainsail," is meant; others, the "top-sail;" while still others understand it to be a small sail or "jib" near the prow. The term perhaps signifies properly the "Foresail" which would be most useful in bringing a ship to head into the wind under the circumstances narrated by Luke. Acts 27 :40.

BASIC BELIEF - BELIEF IN EVOLUTION: In the common person's world today, the biggest challenge to the teaching of creation is the theory of evolution. However, the actual fossil record does not establish the case of evolution. Dinosaurs have great deal of fascination for children, and with them. But it needs to be remembered that the termination of certain species has been seen in our own time -like the disappearance of the carrier pigeon. No matter how strange creatures may have been, has not established the theory of evolution.

HUMOR - A BARBER asked, "Hey, haven't I shaved you before?" "No," the man said, "I got this scar in the war."

TIP OF THE WEEK - Use synthetic oil, and only change your car oil every 7,500 to 8,000 miles.

POWER FOR TODAY - When Solomon was anointed King of Israel, God appeared to him in a dream telling him to ask for whatever he wanted. He asked for discernment that he might rule wisely over God's people. Think back over your prayer requests. Do you pray more for others, or for yourself?

HEALTH TIP - Diabetes can present a silent health threat to aging men. Symptoms, include blurred vision, dizziness, extreme thirst, high blood sugar levels. The result can be heart attacks, blindness, strokes, kidney failure and amputations.

LIFE IN AMERICA - The WPA was established under the Emergency Relief Appropriation Act, as a means of creating government jobs for some of the nation's many unemployed. Under the direction of Harry L. Hopkins, the WPA employed more than 8.5 million persons on 1.4 million public projects. Hasn't worked in this administration as did in FDR time.

KIDS IN CHURCH - Bible School teacher asked her class why Joseph and Mary took Jesus with them to Jerusalem. A small child replied: "They couldn't get a baby sitter."

SHALL WE GATHER AT THE RIVER - In the old days, religious folk gathered at the river after a revival to baptize those who had been touched by the Gospel, and truth is never hurt by investigation. If one is right, then further study will bring him /her back to his /her first conclusion and fortify his/her faith. If he/she is wrong, then they need to know so they can change and believe as God wants them to.

HOW SKATERS DON'T GET DIZZY - Trained skaters do not focus on a fixed point during a spin but rather they remain in a stabilized position focusing on space between the skater and the next closest object. This gaze is like a daydream.

ARE YOU THE ONLY ONE'S GOING TO HEAVEN - The final sentence of Acts 2 should not missed. "The Lord added to the church daily such as should be saved" (Acts 2:47). Nowhere records that sinners "joined" the church. God added each to it. Once he/she obeys the gospel it's out of his/her hands. Salvation and membership occur as a simultaneous process.

STATESIDE/OVERSES - HG SUPPORTED/ SEARCH - ROCKWOOD, TN "I begin my day every Sunday morning watching In Search of the Lord's Way. It means so much to me. Then I go to Bible study and church service. Recently I bought the autobiography of Mack Lyon. Can't wait to read it. May God bless and continue to help you broadcast In Search. It has helped me more than I have words to express."

AMERICA YOU DON'T KNOW - Government Functions? Branches are the judicial, executive, and legislative. The legislative branch creates the law, the executive branch enforces the law, and the judicial branch interprets the law.

LOCK STOCK & BARREL . Unexpected good fortune, when a potential catastrophe turns to one's advantage, is often referred to as 'falling on your feet'. The belief that cats invariably manage to land on their feet and therefore avoid serious injury even when falling from considerable heights. And cats, one should remember, are supposed to be blessed with nine lives.

NAME OF JESUS - LAWGIVER: Isa33:22 For the LORD is our judge, the LORD is our lawgiver, the LORD is our king; he will save us.

BRAIN TRADER - Buy me, smell me or deliver me, I don't change.

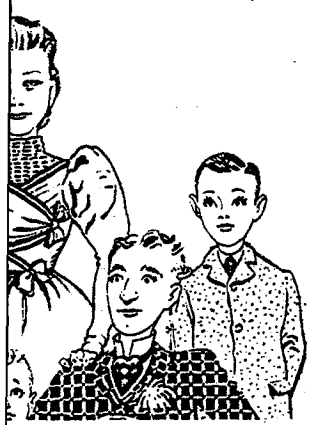

BIBLE QUIZ - What warning from Jonah - Major U.S. city named from Rev - Book says allow not sun set on your wrath.

THOUGHT FOR THE DAY - In order to receive the direction from God you must be able to receive the correction from God . . . My son, despise not thou the chastening of the Lord, nor faint when thou art rebuked of him: For whom the Lord loveth he chasteneth, and scourgeth every son whom he receiveth. Hebrews 12:5b,6

WEEKLY MEMORIZATION - Cut & Keep - I Peter 3: 21 - The like figure whereunto even baptism doth also now save us

Children

teach your

parents in

the Lord:

For this

is right.

Honour

your father and

mother;

which is the first

commandment

(a promise;)

that it may be

well with thee,

that thou mayest

live long

in the earth.

EXPANDING YOUR HORIZONS

WHAT KIND OF FRIEND ARE YOU?

by Dalton Key

How would you define friendship? One grade-school girl put it this way: "A friend is someone who says nasty things to your face instead of saying them behind your back."

While the first part of her definition may be less than advisable, the last part is both apt and accurate.

The inspired Solomon had much to say on the subject of friendship: "He that repeats a matter separates . . . friends." (Proverbs 17:9.) "A talebearer reveals secrets: but he that is of a faithful spirit conceals the matter." (Proverbs 11:13.) "Where no wood is, there the fire goes out: so where there is no talebearer, the strife ceases. As coals are to burning coals, and wood to fire, so is a contentious man to kindle strife. The words of a talebearer are as wounds." (Proverbs 26:20-22.)

A true friend, "loves at all times." (Proverbs 17:17.) This, among other things, means living by the golden rule of love which teaches, "All things whatsoever you would that men should do to you, do you even so to them." (Matthew 7:12.) A friend does not spread or fuel harmful rumors about others as he would not want others doing so against him.

A true and loving friend "does not keep account of evil or gloat over the wickedness of other people. On the contrary, (he) is glad with all good men when truth prevails." (1 Corinthians 13:5,6, Phillips.)

What kind of friend are you?

Infrared Squirrel Tails

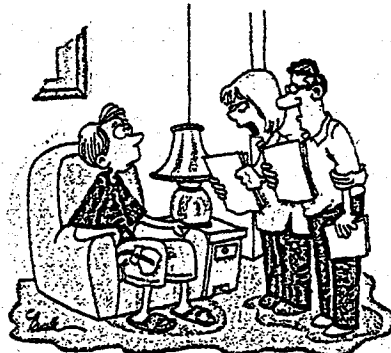

One of the unseen problems that exists in the natural world is the balance between predators and prey. Many people do not understand that if there were no predators, plant eating animals would eventually be so numerous that they would run out of food and die of starvation--a death far more terrible than the quick death that predators inflict upon them. If predators are too efficient they can wipe out the plant eaters that are their prey, and then they would die of starvation themselves. One of the design features which helps to balance this prey/predator ratio is the presence of highly designed systems in the prey which prevent over eating by the predators. Ground squirrels offer a great example of this, and in California new studies have shown a highly designed system that prevents their primary enemy, the rattlesnake, from killing them all off. The rattlesnake has a highly designed system of its own that helps it find adequate prey. Rattlesnakes have a sensor in their cheeks which picks up infrared radiation or heat radiation given off by warm blooded animals. On a totally dark night or in a dark cave a rattlesnake can see a mouse or other warm blooded prey because it can see the heat radiation coming from the animal. Man has copied this system to make infrared scopes which allow night vision, used so extensively by the United States military. The problem is that an animal like a ground squirrel could be wiped out by rattlesnakes if it did not have some method of combating the infrared abilities the snake has. Scientists studying this relationship have seen that when a rattlesnake is around ground squirrels, the squirrels move their tails up and down in a display that is called flagging. The squirrels will kick sand at the snake and nip at the snake's tail, but all the while they are doing this the tail is moving in a wild erratic motion. Studies have shown that when the squirrel starts the flagging behavior, the tail heats up giving off larger and larger amounts of infrared radiation. This flooding of the rattlesnake's infrared sensor is so total that the snake will usually give up and crawl away. What is absolutely amazing is that if a gopher snake that does not have the infrared sensing ability approaches the squirrel, the squirrel's tail does not heat up. Only when the squirrel is endangered by snakes with infrared ability does the tail heat up and give off the flood of infrared signals. Trying to explain how the squirrels can recognize the type of snake approaching them, and heat up or not heat up in response, is an incredible challenge if you try to maintain that it came about by mechanical chance processes. We would suggest that there is design in the survival equipment of all living things, and this is a powerful example of the wisdom and design that God has built into all parts of the natural world.

NEW CATASTROPHISM EVIDENCE

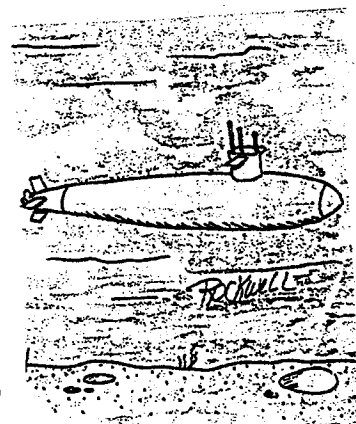

One of the major issues in questions about evolution is the question of how the earth has functioned throughout time. Evolutionists assume that uniformitarianism is true--that the processes operational on the earth right now are the only processes that have shaped and molded our planet. Catastrophic changes like a worldwide flood would not work in most evolutionary models. New research is showing a number of events that are not uniformitarian in nature, but which have evidence to support them. Here is a list of them and some of the evidence. Asteroid impact-- elements of extraterrestrial origin, fragments of meteorites, huge impact craters. Methane explosion--spikes in carbon 12 isotopes best explained by a methane belch in the ocean. Slow methane leak--low oxygen animals seemed to thrive during the geologic period when this is claimed to have happened. Hydrogen sulfide expulsions--sulfur bacteria found in sediments. New data will support or reject these models, but what is interesting is that the assumption of uniformitarianism seems to be poorly supported.

"It's Mother's Day! We're going to serve you breakfast in bed, as soon as you get up and fix it."

"We've decided to support you for the rest of your life. It's cheaper than sending you to college."

"And then I saw a poster that said, 'Join the Navy and see the world.'"
